

## **Virtualstock welcomes Simon Jersey to The Edge4Health**

**London, November 5 2019** – Simon Jersey has become the latest supplier to join The Edge4Health.

The UK's leading workwear fashion company, Simon Jersey – which provides clothing to small independent companies through to multinational global brands every day, all over the world – will now have its products accessible in The Edge4Health for NHS organisations to view and order.

It joins the Healthcare supplier community in using The Edge4Health at a key time for the NHS, as it looks to harness technology to improve efficiencies and cost savings.

The Edge4Health enables healthcare providers to deliver efficiencies via its online catalogue, marketplace and procure-to-pay solution, and simplifies how healthcare suppliers trade with the NHS whilst showcasing their product range and expanding their customer reach.

It harnesses the supplier's own product data to allow Healthcare Providers to procure products using the correct and most current data. This in turn enables purchase order processing to be truly efficient, allowing accurate invoicing which decreases invoice discrepancies, and can lead to faster payments.

The platform is GS1 and PEPPOL certified.
