

STATEMENT ON COVID-19

The world is experiencing an unprecedented human and economic crisis due to the effects of the Coronavirus (COVID-19) pandemic.

As we continue to be vigilant in monitoring the situation, Virtualstock understands that everyone is anxious and worried as to how this will affect customers, employees, families and global communities.

And we are no different. Which is why we are doing whatever we can to help the support effort.

Within our Healthcare business, we are already working very closely with the Government and partners to ensure Trusts are continuing to get the supplies and services they need through our The Edge4Health procurement platform.

In retail, we are supporting retailers to onboard more suppliers to extend product ranges with Dropship and meet extraordinary levels of demand as customers increasingly turn to online shopping to ensure their families are staying healthy and fed.

If you're in the retail or healthcare industries our message is simple – **we are here to help.**

Please do not hesitate to reach out directly via LinkedIn or via email mark.melvin@virtualstock.com (healthcare) and ruth.concannon@virtualstock.com (retail).
